

Adventist International Institute of Advanced Studies Graduate School

NAME:

SERVICE LEARNING TIME LOG

Service learning is a graduation requirement of 100 hours of student-selected professional activities that involve applying theoretical learning and skills in service to the community. Students should select activities which will provide opportunities to learn and develop professional skills, not merely serve others in a way unrelated to their profession. Time spent should be recorded on this log, with comments and a signature provided by someone (not a classmate) present at the activity. Photos and field notes should be taken, for use in the final portfolio (see Academic Bulletin, pp. 63-64). Any questions about Service Learning activities, logs, or the portfolio should be directed to your Academic Advisor.

Date	Activity	Your contribution	Time (Total Hours)	Verified by (Name/signature)	Evaluation/Observations (by person who signed)
